Want to learn more about Blended Learning strategies? NOW is the time. **Funding is available for the costs of training and implementation support** for Texas educators.

UTeach believes in the power of well-prepared teachers with effective instructional pedagogies, classroom management strategies, and technology that will spark student interest and support personalized learning. The UTeach Blended Learning Series was born out of this conviction. Upon completion, you will have lesson plans, classroom management plans, and technology plans to use in your classroom.

**What?**
Four-course series online with live webinar support.

1. Blended Learning: Where Do I Start?
2. Differentiation in the Blended Classroom
3. Tools and Strategies for Managing a Blended Learning Environment
4. Capstone Transforming Classrooms for the Digital Age

**When?**
New cohorts start each month.

**Cost?**
$1,000 for the four-course series and 30 CPEs. See the Funding + Stipend box to the right.

**Funding + Stipend**
Texas public school districts are eligible for full reimbursement of registration fees and teacher stipends. Districts are reimbursed the $750 teacher stipend with completion of the series.

**Why UTeach?**
UTeach combines decades of experience preparing teachers to implement student-centered instructional strategies with the tools and techniques of blended learning.
