

DATA-DRIVEN INSTRUCTION

PARTICIPANT IMPACT

Helping educators turn data into instructional action.

9.0 / 10

AVERAGE RATING

Overall participant recommendation score.

96%

COURSE CONTENT

Participants reported high levels of satisfaction with course content.

9.2 / 10

FACILITATOR FEEDBACK

Participants rated feedback as highly valuable.

WHAT PARTICIPANTS GAINED

PRACTICAL STRATEGIES

Participants valued actionable tools and templates they could immediately implement in their classrooms.

DATA ANALYSIS SKILLS

Participants reported increased confidence analyzing student performance data and identifying trends.

TARGETED INSTRUCTION

Participants learned how to adjust instruction based on evidence rather than assumptions.

COURSE TESTIMONIALS

“ I now have a process for using student data to make instructional decisions instead of simply collecting data. ”

“ The course provided clear, practical strategies to implement the DDI cycle in a way that feels manageable and meaningful. ”

“ The facilitator feedback helped me refine my thinking and apply the concepts directly to my classroom. ”
