Foundations of Blended Learning: CTE Edition

This course is designed for Career and Technical Education teachers looking to integrate blended learning strategies into their unique instructional environments. Modeled on our core course, Foundations of Blended Learning, this edition includes CTE-specific examples, tools, and exemplars created by past UTeach PD participants and Certified Blended Learning Educators. Participants will explore how to personalize learning using free, accessible digital platforms while balancing hands-on instruction with student-centered design.

MODULES

- Blended Learning: Where Do I Start?
- Personalized Learning in the CTE Blended Classroom
- Tools and Strategies for Managing a Blended CTE Environment
- Blended Learning Reflections

30 CPE credits
Length: 12 weeks
Format: Asynchronous with opportunities for virtual collaboration

$1,000 per participant
Course fees qualify for reimbursement by the Texas Education Agency upon completion.

SUPPORT ELEMENTS

- Access to a success coach to monitor progress and answer questions
- Personalized and prompt feedback on all work products
- Online collaboration with highly skilled blended learning facilitators
- Templates, checklists, exemplars, and other resources to guide the work of a blended learning teacher

CTE teachers who have previously completed the Foundations course can request access to all materials from the new CTE-specific Foundations course. Materials include enhanced content tailored for CTE instruction, including classroom examples, strategies, and more.
