

Introduction to Data-Driven Instruction for Administrators

This Data-Driven Instruction for Administrators course is designed to transform educational leadership by integrating macro-level data analysis into campus oversight, empowering leaders to establish unified protocols, align teacher coaching, and drive district-wide success. Participants learn how to leverage aggregate student data to scale effective personalized learning experiences across campuses.

DETAILS

10 CPE credits

Length: 12 Weeks

Format: Asynchronous with opportunities for virtual leadership collaboration

COST

\$600 per participant

Course fees qualify for reimbursement by the Texas Education Agency upon completion. Group discounts available.

OBJECTIVES

- Empower educational leaders with macro-level data literacy
- Promote systemic, campus-wide assessment and feedback loops
- Foster sustainable personalized learning models
- Align teacher evaluation and walkthrough protocols to data implementation
- Enhance school and district-wide student learning outcomes

MODULES

- Data-Driven Instruction: Where Do I Start? (Build coherence & align walkthroughs)
- Begin with the End in Mind (Model TEKS analysis & set campus goals)
- Processes of Analyzing Student Data (Establish unified, cross-department protocols)
- Formative Assessments and Adjustments to Instructional Delivery (Evaluate assessment rigor & schedule)
