

Introduction to Data-Driven Instruction

This Introduction to Data-Driven Instruction course is designed to transform educational practices by integrating comprehensive data analysis into everyday teaching, empowering educators to make informed decisions, tailor instruction to individual student needs, and drive academic success. Participants learn how to harness the power of student assessment data to create effective personalized learning experiences.

DETAILS

20 CPE credits

Length: 12 Weeks

Format: Asynchronous with opportunities for virtual collaboration

COST

\$1,000 per participant

Course fees qualify for reimbursement by the Texas Education Agency upon completion.

OBJECTIVES

- Empower educators with data literacy
- Promote real-time assessment and feedback
- Foster a personalized learning environment
- Encourage data-driven decision making in education
- Enhance student learning outcomes

MODULES

- Data-Driven Instruction: Where Do I Start?
- Begin with the End in Mind
- Processes of Analyzing Student Data
- Formative Assessments and Adjustments to Instructional Delivery
- Data-Driven Instruction Action Plan
