Foundations of Cybersecurity Workshop

In this workshop, new UTeach Foundations of Cybersecurity teachers will learn how to create customized learning experiences for students through project-based instruction, leveraging blended learning strategies to ensure student success.

DETAILS

30 CPE credits
Format: Online meetings and self-paced modules with on-demand support from a PD facilitator

COST PER TEACHER (*REIMBURSABLE)

$1,950 for Professional Development Fee and License Fee (includes curriculum, year-round support, and platform access for unlimited Cybersecurity students)

PREREQUISITE

Any educator from any content background scheduled to teach Foundations of Cybersecurity (no previous cybersecurity or programming experience required)

* Fees qualify for reimbursement by the Texas Education Agency. Visit https://bit.ly/tea-cs for eligibility.

OBJECTIVES

- Familiarize yourself with the comprehensive UTeach Foundations of Cybersecurity teacher materials and curriculum, often from a student's perspective

- Explore background cybersecurity content through course activities, projects, and hands-on labs

- Practice the collaborative, project-based blended learning instructional strategies necessary to teach the course successfully

SUPPORT ELEMENTS

- Individualized mentoring and on-demand support from dedicated teacher support specialists

- Webinars and support videos providing just-in-time guidance throughout the year

- Professional learning community to share resources, challenges, and successes
