

Designing Project-Based Instruction

This course offers participants an exploration of the methodology and benefits of using project-based instruction to provide authentic and challenging experiences for students, with an emphasis on blended learning strategies.

DETAILS

30 CPE credits

Length: 12 weeks

Format: Asynchronous with opportunities for virtual collaboration

COST

\$1,200 per educator*

*Course fees qualify for reimbursement by the Texas Education Agency upon completion.

Prerequisite: Completion of the Foundations of Blended Learning course.

COURSE OBJECTIVES

- Integrate blended learning strategies with PBI to ensure relevant content and connections to other disciplines and real-world situations
- Identify the key elements of high-quality project design
- Prioritize learning standards and propose learning goals for a PBI unit
- Develop a sequence of events for the PBI unit, including a project launch and inquiry and research options
- Provide opportunities for feedback, reflection and revisions, and project presentations

SUPPORT ELEMENTS

- Personalized feedback on all work products
- Online collaboration with PBI colleagues
- Resources for creating additional PBI Units
