

Introduction to Blended Learning

In this live session, participants will become familiar with tools and strategies indicative of a blended learning environment, engage in a blended learning simulation, and reflect upon blended learning classroom environments.

FORMAT

This session is offered as a synchronous virtual session or an in-person session.

COST

Two 3-hour synchronous virtual sessions
\$3,000

One-day (6-hour) in-person session
\$7,000 for up to 50 educators

\$9,000 for more than 50 educators

Session fees qualify for reimbursement by the Texas Education Agency upon completion. Group discounts available.

SESSION OBJECTIVES

- Gain an overview of blended learning including definition, philosophy, research, and models
- Engage in a 5E learning cycle to explore blended learning
- Complete a blended station rotation simulation to discover active learning and assessment ideas that can be implemented in classrooms
- Reflect upon the blended station rotation simulation and how to create a classroom environment conducive to blended learning
- Create a station rotation module
